

IF YOU'VE SEEN THIS...

...YOU SHOULD PROBABLY SEE US!

At [Asahi/America](#), we've seen and solved it all—from leaking chemical dosing systems, struvite buildup, and everything in between. Whether designing or updating your system, we ensure safety, efficiency, and effectiveness with our valve and piping solutions to handle all fluid processing challenges.

Meet our experts at **Texas Water 2025** in Houston (booth #1936 & #1938), March 18 - 20, for our tailored flow control recommendations. Can't wait? Contact us today or set up a meeting before the show.

See y'all in Houston!

ASAHI/AMERICA PRODUCT PREVIEW AT TEXAS WATER 2025

Chem Proline®
Advanced PE
Chemical Piping
System

Series 19 Electric
Quarter Turn and Multi
Turn Actuators

Double Contained
Piping Systems

Chem Proline® features advanced PE resin with superior properties like stress crack, impact, and abrasion resistance. Available in sizes 1/2" - 12" (and larger sizes available too), it outperforms metal, FRP, and PVC in harsh chemical applications.
